TechNoir collaborated with **Golden Parachute** to produce a portal to find out if great minds really do think alike.

Golden Parachute

Golden Parachute wanted to become the premier Internet destination for top alumni and companies who desire to employ highly educated and motivated personnel. Their plan was to charge competing corporations for access to the best and the brightest.

Business Challenge

Golden Parachute wanted to become the premier Internet destination for top alumni and companies who desire to employ highly educated and motivated personnel. Their plan was to charge competing corporations for access to the best and the brightest.

- Automated resume submission and matching

- Resume ranking system

- Auto-forward messaging

- Online dating service

- Auto reply email

TechNoir solution

TechNoir designed and developed a highly functional, password-protected portal that facilitates business and personal relationships. The job search & browse section features include automatic resume submission, matching, and ranking. The personal section encompasses an automatic messaging center, chat rooms, and dating service. The site's interface is savvy, friendly and consistent with Golden Parachute's strategy. After the successful launch of goldenparachute.com TechNoir maintained and hosted the site ensuring a smooth, trouble-free operation.

Services Provided		
	Design:	TechNoir designed the website, Golden Parachute logo, business cards, and letter head.
	Development:	All site development was performed by TechNoir, including webpage layout, programming, and database design.
	Hosting:	TechNoir provided hosting for the site during its first year of operation.
Technologies used		
Microsoft IIS, ASP, Javascript, Java, MS SQL Server, C++
